Homelessness Awareness Month

This month we raise awareness for families who are experiencing homelessness. Being homeless can mean many different things. The school district has a program to support families who are experiencing homelessness.

You may qualify if...

You live in your car.

You are living with someone else (doubled up).

You are living in a shelter.

You are living outside of your home.

You have no place to go.

If you believe you fit into any of the above situations, please contact Brianna Griffith, school social worker, to be referred for this program.

bgriffith1@gbaps.org

SCHOOL BASED Mental Health

MacArthur has been granted School Based Mental Health this school year. Our partnership is with Foundations Health and Wholeness. Once a week, a therapist will come meet with students based on the needs of the student. Needs include but are not limited to: Grief, past trauma, anxiety, foster care, incarcerated parent, friendship concerns, etc.

- Do you feel your child may benefit from School Based Mental Health?
- Do you have a barrier that prohibits you or your child from attending counseling/therapy outside of school?

If you answered yes to these questions, please reach out to School Social Worker, Brianna Griffith at 920-272-7235 or bgriffith1@gbaps.org for more information or to sign up.

Our next newsletter will be emailed to families on Friday, December 1, 2023. Due to the Thanksgiving holiday, there will not be a newsletter next week.

There is no school on November 22-24.
